

## -Bulletin-

The High Sierra Radio Control Club has chosen to support the Veterans Guest House of Reno as our charity for the year. The proceeds from our fund raising and charitable efforts for 2012 will go to this worthy organization.

The Veterans Guest House is a "home away from home" for U.S. military service veterans receiving medical treatment and for families of veterans who are receiving care at facilities in the Reno/Sparks, Nevada area. It is located within two miles of three of the four major medical facilities in Reno.

On Saturday, September 29<sup>th</sup>, 2012 HSRCC will host "The Northern Nevada Flying High for Veterans" Event here at the Pony Express Airpark. The event is open "free of charge" to the public.

All surrounding clubs participating in model aviation are invited to attend and be represented at this event. We plan to have a vast display of models of military and other aircraft of all vintages. Our field will be open to all types of flying and demonstrations with constant activity from start to finish.

HSRCC will be raffling a beautiful ready to fly model of the Cessna 182 donated by the club members at the end of the event. Proceeds from the raffle will benefit the Veteran's Guest House.

Top Flite Cessna 182 - Wingspan 81 inches, Length 64 inches  
Functioning Navigation Lights Full Interior, Complete with  
electric motor, battery, charger, and radio controls
