

Next Meeting – Thursday, March 12th, Carson City Airport Terminal – 6:30 pm

See that round building with the two wings on the North side of E. College Parkway? That’s where we will meet for at least the next three months. Tom will be bringing in his half finished 35% 540 for a “Hands-On” show and tell. Ken is scheduled to show off his Don Smith B-17 in April and I will show my Don Smith A-26 in May. Note that the day of the week has changed to accommodate those that could not make a Tuesday night.

And just for the heck of it, here is another photo from MapQuest of the Pony Express Airpark. Not sure when this was taken or how often it is updated. Who’s that peeing behind the club house?

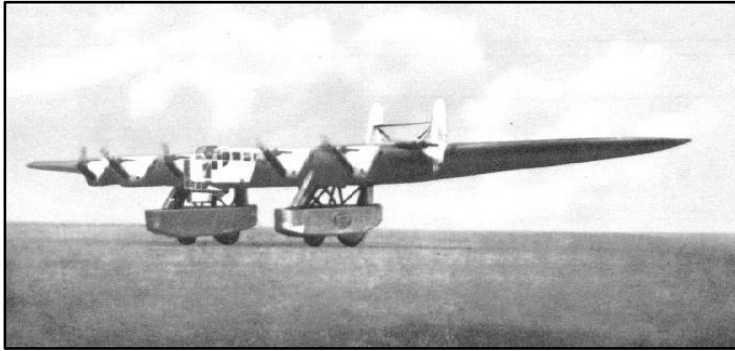

Speaking of doing stupid things! Someone has been seen drinking alcohol at the field. If you are a club member and are doing something that stupid, don’t bother joining the club or coming to the field. We don’t want you. If you see someone drinking, call the Park Ranger or Sheriff. Get their license plate number as well. They will be banned from the field.

They done it! They done it! Damned if they ain't flew.

— Johnny Moore, shouted while running to the village of Kitty Hawk. 17 December 1903

Les Harris just sent out an email with this unusual plane in it.

It's real, but someone has done a fine job using Photoshop.

Note the big battle ship guns! Maybe someone can do an electric RC version! More Power! More Power! Thanks Les!

Presidents Corner:

As noted elsewhere in the news letter we will be holding our meetings at the Carson City airport on the second Thursday of the month for the next three months. As with all of our proposed programs this year we need your input and assessments. We will be conducting how-to sessions after the club business portion of the meetings. We will be starting with basic /advanced building techniques during the next three months, followed by airframe setup, servo alignment, etc. Due to the size of the airport facility the sky is the limit as far as what can be presented. Please feel free to volunteer to take on a topic. The object is to provide basic information to new members, and get discussion started on various methods of solving problems related to the hobby.

As all members seem to like the idea of food /snacks for the meetings, we will be asking our members that attend the meeting to host a meeting during the year. This will entail providing the refreshments for one meeting during the year. Expenses for the items purchased will be re-reimbursed by the club.

If you have been to the field lately you have noticed a major improvement to the car track. The car guys are planning to put on seven races this year, with a portion of the entry fees going to the club. We anticipate that a number of those racers will be joining the club as they did a few years back. This will be very good for the club as it will provide additional membership and strengthen our position with the city in the future discussions.

Hope to see you all at the March meeting...
