Dec 12	Annual Christmas Party	Bob Jones

**An Open Invitation to all flyers.....** We at HSRCC want to invite all flyers to our events. Our goal is simple... and that is to have fun, enjoy flying, and promote the friendliness and we are known for. None of our events are competitive. Prizes are either donated by club members or provided by the club. New flyers have the same chances of winning something as do the most advanced flyers. This year, we are working hard to raise funds for the Veterans Guest House in Reno, NV. All our fund raising activities are directed to the Guest House. For 2012 there will be no entry fees to our contests. If you would like to make a donation to the Guest House, at an event, your support will be greatly appreciated. Please take every opportunity to come and fly with us this year. Bob Jones-President

**Our Civic Project for 2012... The Veterans Guest House, Reno, Nv.** The Veterans Guest House is a "home away from home" providing care at facilities in the Reno/Sparks, Nevada area. It is located within two miles of three of the four major medical facilities. The House was dedicated and easily accommodated 12 veterans or family members. The House is completely funded from support from a 501 ( c )(3) non-profit organization and does not receive any financial support from the government, VA Medical Center or other sources. - Please join us in this very worthy endeavor. - BJ

The Guest House is located at 800 Locust Street in Reno. A new addition has been opened next door.

from home" for U.S. military service veterans receiving medical treatment and for families of veterans who are receiving medical treatment at VA facilities in Reno. The original Guest House opened in 1994. On November 11, 2004 the new Veterans Guest House opened and contributions from our community, volunteers and local businesses. The Veterans Guest House is a 501(c)(3) non-profit organization for the states of Nevada and California. Our goal is to raise money offer support to the Guest House through our vari-

The physical amenities of the house allow provision of the intangible comforts of a warm, caring and supportive home, at a time when the veteran or family member is dealing with other pressing issues. Guests are asked to make a small donation to help defray the operating costs for the house. However, no otherwise qualified person is refused accommodations for lack of funds.

The original Guest House opened in 1994.

Reno, NV 89502-0948

Mr. T's superb Super Sportster at Show and Tell and then out at the field awaiting it's custom built three-bladed prop and spinner. Photo's by H. Siegfried.

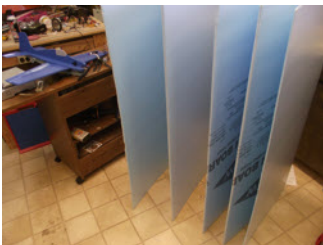

Remember "Fence-Finder Fred" ? Well here he is returning from his 50th flight without repairs on his Sig LT-40. It was quite a moment, as he taxied back and shut down a large crowd of spectators and interlopers surrounded him to offer their congratulations. Fred announced "he was glad to finally be flying without fear" but someone misconstrued what he said, thinking they heard him say "come on guys, I'm buying the beer". As a consequence, we all retired to the local pizza joint and consumed a respectable amount of pizza and beers. A good time. -BJ

Don Morse returned from the AMA convention with a few new items. Among them was this fantastic B-17 featuring retracts, flaps, navigation lights as well as four turning. Four other members bought similar B-17's. Could there be a mass formation over the field in the near future? Let's hope so.

Aerial Combat anyone.... Here are some pics of my foamie Wildcat built for combat and successfully test flown by Les Harris. It has a w.s. of 30" , weighs 8.6 oz ready to fight and is powered by a 1700 kv brushless motor, 10 amp controller and a 1000 mah battery. The foam material is called protection board. It approximately .25 " thick and comes in a sheet 4'x 50' long fan folded.

Here are the parts laid out for the Zero to oppose the Wildcat. It will have the same specifications as the Wildcat so their flight characteristics should be similar. Each plane will tow a streamer one inch wide and about 15 feet long. Both planes use two 9 gram servos for ailerons and elevator. Cost per plane should be about \*30.00. Stay tuned....and watch your six! -BJ.

**Gomez Gold at the next meeting ...**  
**\$77.00**

**On the cover... Les Harris has Miss Texas just about finished.**
