## UPCOMING EVENTS

June Meeting – 6/14/2016

June 18, 2016 Carson Airport Open House

June 22, 2016 - CPR-AED Training

---

## Annual Roll Out Party / Chili Feed

May 14<sup>th</sup> we held our annual Roll Out Party and Chili Feed. Many attended and flew, despite the strong winds predicted. When the wind got stronger, the crowd gathered around the chili more. Eventually airplanes started buffeting and moving around on the tables, causing a shift from the chili to securing airplanes and eventually packing up. Even with the wind, It was a great way show off new projects and trade stories.

Frank and Tom split the prizes, gift certificates to "Subway". Frank had rescued and re-built the white and red Tri-Pacer and did a great job of bringing it back to life. Tom brought out a unique model of the "one-of" Wolf Samson II Bi-Plane.

They each had 5 votes. Roger was the next closest at 2 votes for his Cub float plane. There were 6 other planes each getting one vote.

**Stephen Panter's Seawind Amphibian**

**Tom Reinbolt's Wolf Samson II Bi-plane**

**Tom's Pilatus, then Vince's Pilatus, then Tom's Pilatus, now Bob Jones' Pilatus.**

**Frank's Tri-Pacer**

**Don's Shooting Star with Red Bull P-38 and P-39 Aircobra under the bench**

**Gary's collection.**

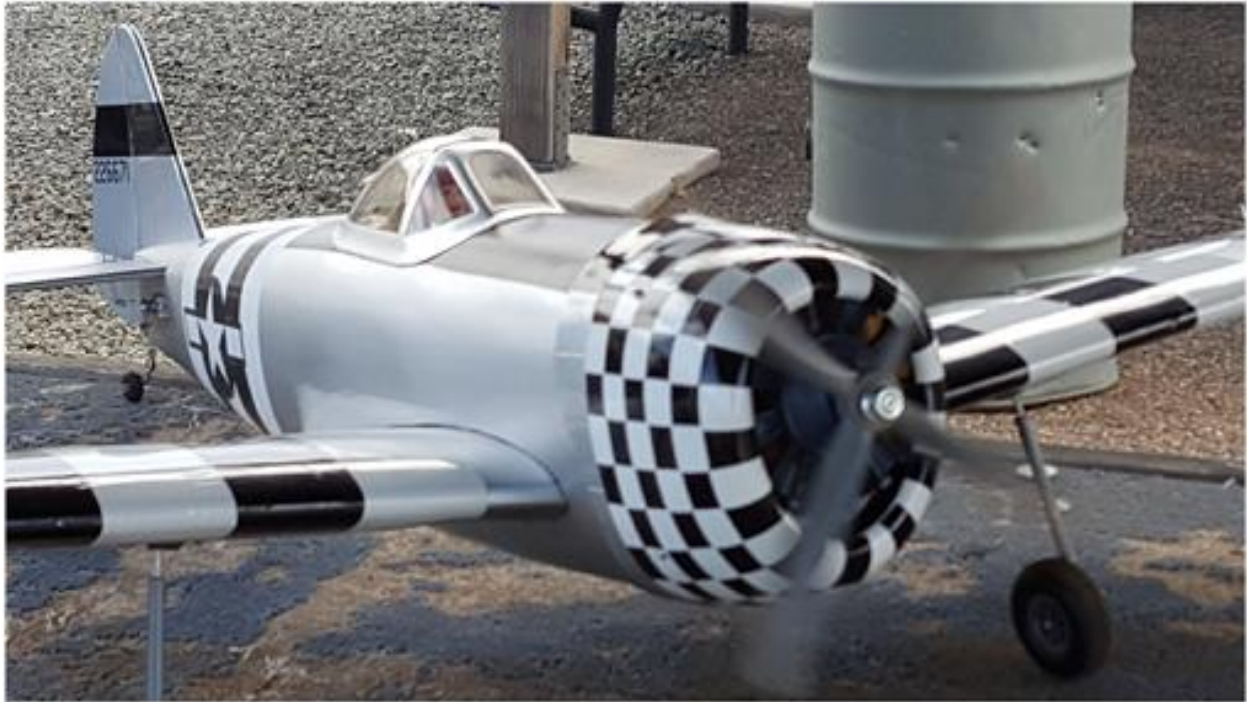

**A little flying before the strong winds and some casual story telling**

**Vince Euse brings out a great flying little Radian**

**Collection from Dave Triano**

**Roger Collins with his newly re-built P-47 converted to Electric. I did not get a picture of Roger's yellow Cub on floats, but it was finished very nicely too.**

## **A message from Bob Sullivan about our Carson City Hobby Store.**

The Seymours, Joan and Ken, asked that you be informed that their store, HobbyTown USA, 2303 North Carson Street, Carson City, will be closed by the end of this month.

The Store will be taking no special orders during the remaining days. The Store is offering large discounts on merchandise....everything goes, even the shelving.

Generally speaking, and do not quote me exactly, the closing sale offers....25% off on tools, plastic kits, RC vehicles/aircraft; 50% off paints; 75% RC parts, puzzles/games....

If you are around town, stop by and say "good-bye" to the owners, wish them well, and see if there is anything on the shelves and bins that you need.

Bob Sullivan

HSRCC Vice President

# ***HSRCC Old Timers and gliders Event. June 4, 2016***

*(Speaking of Old Timers) Vince and Stephen showing how it's done!!*

Sorry, I could not resist! -Dan

"By the end of the morning, even the light sport planes were thermaling"...

Which is true....the regular 50" foam electric sport planes were able to hang, motor off, for quite awhile...amazing conditions...we were even timing their glide....And of course, great conditions for the gliders and Old Timers... -Bob

**Tom's Valkyrie was impressive to watch. Both Tom's planes pictured here flew great!!**

**Bob Sullivan's Nobler R/C electric conversion and Culver Cadet R/C electric**

Model of 1933 Aeronca C-3 Originally built by Ralph littler of HSRCC approx 20+ years ago, built from plans. Converted from glow to electric 2015. (Cowlings and final finish due to be completed sometime before the next 20 years)

Bob Sullivan's old time airplanes.

***Hi, Dan.. We have lost several past members this year. Phil (Bud) Haley died on Feb 27 in Virginia and Don Fritz told me that Ted Malone died a couple weeks ago. Don Morse***

# Cub Scout Rocket Day at HSRCC

Cub scout leader Jeremy Fox brought out his troop for an afternoon of fun and rocket launching!

## Pictures of airplanes removal from the round terminal building at the Carson City Airport.

As you may know, the airport terminal may be torn down. Bad timing concerning the Airport Open House, but.....

We had to remove all the models that were hanging from the ceiling so that an engineer could get into it and inspect the roof. Half of the planes (Bob Brogan's) were sold and the money went to the Brogan family so that they could fund a foundation in their mother's name. A bunch more were removed by their owners. Two planes were donated to our club to be used as raffle prizes. One is from Roger Collins and is a Burt Rutan design with pusher engine and canards. The other is this great bi-plane from Art Hall. His wife Judy thinks that he would have liked to support the club one more time! Thank you Roger and Judy! - Dan

A U-haul load of Commander Brogan's planes.

Before .....

..... After!

## The Club House Varmint Saga!

Traps and poison! Plugging up entrance and exit holes. Cleaning out nests. Bob put in a lot of work getting the place looking better. Thank you for your efforts Bob!

Keep a lookout for new table tops soon. Dave V. has been a varnishing fool! He has the room to paint three tops at a time against my one. The carpet has been purchased and when Dave gets back, we'll bring them out. That will get about half of them done.

- Dan

A promotional poster for the Carson City Airport Open House & Fly-In. The background is a blue sky with clouds. In the top left, there is a blue silhouette of the state of Nevada with a white airplane flying out of it. The text 'CARSON CITY AIRPORT' is in large blue letters, with the address '2600 College Parkway • Carson City • Nevada' below it. The main event title 'Open House & Fly-In' is in large red letters. Below that, the date and time 'Saturday, June 18, 2016 8 am to 4 pm' are in yellow. A large red exclamation 'FREE Admission!' is followed by three paragraphs of text. On the right, a purple and white biplane is flying. On the left, a white helicopter is flying.

**CARSON CITY AIRPORT**  
2600 College Parkway • Carson City • Nevada

**Open House  
& Fly-In**

**Saturday, June 18, 2016  
8 am to 4 pm**

**FREE Admission!**

An exciting day of aviation and aerospace adventure awaits young and old at the Carson City Airport. See historical military aircraft, flybys, and static displays.

Learn about the exciting world of aviation and the opportunities it offers. Explore the Challenger Learning Center, build a robot and fly a drone.

Learn about flying with the EAA--Young Eagles Program for children ages 8 to 17.

It was a close call, but we will be attending again. Seems there was a guy on the Airport Authority Board that tried to get rid of Tim Rowe, the airport manager. He did not like us either for some reason! But, Tim is still here, the guy resigned, and we will display and fly!

More info to come by email.
