

UPCOMING EVENTS

Tuesday, May 9th, Meeting At El Aero, 6:30
We will be talking about Drones (again), and
decision to remove the car race track and add a
2nd flight line facing south for drones, (and
other business).

(We still need someone, “or a few”, to volunteer and help put out our
newsletter)

**Our next field event will be on 5-13-17, see
below, or attached flyer.**

One of my favorite Barnstormers riding on the port landing gear during an air show routine sometime in the 1930's. This guy, Harold Johnson, did some amazing aerobatics with a Ford Tri-motor for the time.

Here is some links to videos of Harold doing his thing.

Hi everyone,

I want to start out, by copying and repeating an earlier announcement e-mail From Bob Jones, who says below what I'm sure we all feel. Tom, Rhonda and his family have been a part of our club for many years and we all want to express our sympathy for you and your family.

It is with deep sorrow that we tell you Tom's wife Rhonda passed away last Sunday evening. Rhonda was always supportive of our club and Tom's activities and attended many of our meetings and other activities.

We are saddened by Rhonda's passing and want to let Tom, his son Joe, and brother Bill know that they are in our thoughts and prayers and have our deepest sympathy.

Bob and Mary Jones

HSRCC

Swap-meet & Auction

Hosted by Don Morse and Gary Fuller

2. Silent auction from Larry Johnson estate.

(See Auction Flyer for description of items or contact Gary Fuller)

Thank you to all that attended a very successful meeting last month. The members present debated and voted to replace the car track and install a 2nd flight line for Drones. (You should have received an E-mail from Bob Sullivan detailing the discussion and discussions with Carson City and the Parks Dept., etc... .. If not, let me know and I can re-send). We also debated and discussed some of the conditions we wanted from the city and the parks Dept. (Depending who was counting, the final votes where unanimous, or unanounous minus 1 or 2 club members that were present).

Since then, I received numerous e-mails from Bob Jones and Gary Fuller that in their “private breakfast club meeting”, they and others now appose certain aspects of what was decided in last month’s meeting.

My purpose of bringing this up again, is to hear what gripes or sour grapes the two of them have and to allow anyone else that could not make last month’s meeting to have a 2nd chance to be heard this coming Tuesday.

In order to effectively coordinate with the City and the Parks Dept for their help, I want to be able to let them know what our plan is. If we wait too long to decide, we might be passed up. The City and Parks dept have a lot of other projects to do, and they will just move on to other things. I encourage anyone else to come and speak-up at this meeting, as I want this decision to be “final”, so we do not miss-out on the opportunity for their help as described above and in previous e-mail from Bob Sullivan.

I will let the City and Parks dept know what the club has decided and wants to do, but I can only consider the opinions of the members that express a concerns or that express their opinions. When we voted last month, the members present considered not only input from Carson City and the Parks Dept, but also input from AMA, FAA, and conversations with many other club members to date. I am OK with whatever the club responds with and will support the club's concerns.

We will also be talking about other stuff, including all the up-coming events for our club, and how we convince someone to help-out with the club newsletter.... Followed then by our ever popular "show and tell" where we invite you to bring anything that flys and talk about it. (Finished or not)!!
